

Career paths:

Leadership plays a huge role in the social and academic development of students. Lowland Expedition Leader is a formally recognised qualification and demonstrates a student's ability to develop transferrable skills and build their confidence as effective leaders. By learning to lead others, they improve their confidence, develop communication, organisational skills and learn to problem solve. All of these skills can lead to a career in the sporting industry such as a Sporting Coach, a job within a Leisure Center and in the Outdoor Activities Sector.

Coaching Jobs

What can I do after I have completed this course?

After completing the level 2 Basic Lowland Expedition Leader qualification, it opens the opportunity to complete Level 3 Lowland Expedition Leader as well as level 3 Walking Leadership.
